SUMMARY

Software Engineer with 2 years of experience building web applications using React, Node.js, and PostgreSQL. Comfortable across the stack, with a focus on clean API design and readable code. Looking to grow into backend-heavy full-stack and AI-integrated systems.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React, Redux, HTML/CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB

Tools: Git, Docker (basic), Jest, Postman

EXPERIENCE

Software Engineer — Brightloop Technologies, Remote

Jul 2023 – Present

- Built and maintained REST APIs in Node.js/Express used by the company's internal dashboard, serving around 500 daily active users.
- Developed React components for a customer-facing reporting tool, improving page load time by 20% through code splitting.
- Wrote unit and integration tests with Jest, increasing backend test coverage from 40% to 75%.
- Collaborated with a team of 4 engineers using Git and code review to ship biweekly releases.

Software Engineering Intern — Coastline Software, San Jose, CA

Jun 2022 – Aug 2022

- Built a small internal tool in React and Node.js to track team sprint tasks.
- Fixed bugs and wrote documentation for an existing Express.js API.

PROJECTS

Personal Budget Tracker — React, Node.js, PostgreSQL

- Built a full-stack budgeting app with authentication and monthly spending charts.

EDUCATION

B.S. in Computer Science — San Jose State University, 2022
